RE: Technical Specialist

To Apple,

In my pursuit of new creative endeavors, I was excited to find the Technical Specialist opportunity with Apple. As a progressive part-time employee with technical support experience, I believe that I can bring valuable contributions to your team.

In my experience as an information technology student, I have come to be familiarised with technology concepts and systems. I can take creative photos and clips and edit with multiple Adobe programs.

I have enhanced my communication abilities and cultivated a reputation as a major contributor through customer service and time-management. I am a collaborative team player who is always searching for opportunities to impart valuable insights. With these qualities, I am able to facilitate positive change and impacting outcomes.

For a greater presentation of my background and qualifications, please review my attached resume. I am eager to speak with you and greatly appreciate your consideration.

Sincerely,
Otgonbileg Batbileg
